(1/3)

- To plan education/programs
- At the LFCCHD, as we design our CHIP actions we referenced the document to help best align. Asking ourselves, how can we support what the state is doing.
- Inform myself for future planning.
- In workgroup meetings.
- Using for the Primary Care Needs Assessment to meet grant deliverables.
- Evaluate where and what the needs are at the county level.
- Inform program design
- Program development and implementation
- Better understand how to connect SNAP and health
- Program planning and community engagement
- Understanding populations served or underserved
- Aligning our CHIP with the SHIP
- For other needs assessment and planning for initiatives
- Mostly for grant reporting/ writing.
- Reviewed data to see if was similar to what we have

If yes, please describe how you used the SHA data or plan to.

How can you or your organization contribute to one of the access to care goals? If so, which goal aligns with your organization? Please list organization.

017

(1/3)

- I think FRYSC coordinators who could provide information on access to care from what they hear from the students and families that they work with. -Division of Family Resource and Youth Service Center
- Align with KY Cancer Action Plan strategies to strengthen health professional workforce and fill data and research gaps.
- A few of us participated in the workgroups for 3 of the 5 goals. Here at Madison County Health Department we most likely be using the mental health objectives to see how they fit in with our upcoming CHIP.
- We are planning to go out in the communities affected by the tornado and provide CHWs to offer support to these populations. We offer public health, such as immunizations, in schools to increase access.
- Also UKHDI can support

data visualization and supporting the effectiveness of digestible information for all audiences.

- MHAKY is also advocating for an All Payer Claims Database
- With the concern for data, it will be important to include disability in the data collection. Austin Nugent from the University of Kentucky's

Human Development Institute would be the best person to be involved with ensuring proper representation of disability in the goals of access to care.

- Mental Health America of Kentucky - can participate in help advise on behavioral health data that could be collected.
- Goal 1. Access to care. DPH
- Oral Health Branch: Can augment loan repayment program

How can you or your organization contribute to one of the access to care goals? If so, which goal aligns with your organization? Please list organization.

- numbers through our awards to setal schools.
- KVH is actively working on network adequacy and the formation of a HDT or "all payer claims database"
- I'm not sure at this time but more than happy to help get things started. Nia Rivers. Kentucky Division of Water
- We partner with others in the community—FQHC, local hospital, etc.
- The KPCA is active in many of these areas especially on work force development
- Kentucky Board of Veterinary Examiners. Can collect data. Need to know what specific data is required.
- Increase access to data
- Both goals, KY Primary Care Office
- Increasing the ability to provide mobile services.
- I'm not sure at this time

Which mental health goal(s) are you or your organization able to help with?

0 2 4

Improve mental health in children

Improve mental health in adults

Both

Neither

- OCSHCN
- KPCA

Can you describe if and how any of these goals (Healthcare Engagement, Partnerships, Policy Change, Translate Evidence into Practice) align with your work and your organization?

016

(1/3)

- The LFCHD/CHIP is working to create a website/resource hub and through it will focus on educating, engaging and policy change. We can add to your data from a local level. I would welcome convening in anyway that may be helpful to coordinate and support to maximize resources.
- Fqhcs provide smoking cessation education and address SDOHs, provide Mental Health services. We are working to address food disparities with various organizations
- Much of the work and the mission of the Human Development Institute aligns with these goals. Especially within the Tobacco control efforts as HDI is represented on the National Disability Inclusion for Tobacco Control

Can you describe if and how any of these goals (Healthcare Engagement, Partnerships, Policy Change, Translate Evidence into Practice) align with your work and your organization?

(2/3)

016

and Cancer Prevention Network and represents KY as a leading effort on disability inclusion in tobacco control and cancer prevention. HDI also has experience providing Disability & Tobacco 101 training to tobacco cessation specialists.

- KVH's work focuses on policy change through coalition building, storytelling, community engagement and education.
- Getting information about CATCH

My Breath training out to FRYSC coordinators across the state.

- Partnerships are key.
- Within my work, my target population needs help with cessation strategies. Along with coping skills for behavior change. Having this umbrella of resources, will help motivate clients!
- All of the above fit in with AHA's mission and objectives...but particularly policy change as we

016

utilize many of our resources in that regard. Both at a grassroots and grassroots level.

- I'd love to renew our efforts in tobacco cessation and vaping reduction for people with serious mental illness. Also happy to include nicotine whenever we talk about addictive substances. Mental Health America of Kentucky
- Work with women of childbearing age to

reduce or quit using tobacco products.

- I am at policy level so all apply
- We are providing Catch My Breath and Freedom From Smoking.
- We are trying to help our members to be healthier and do member education.
- Aligns with KY Cancer Action Plan
- Plans for a staff member to be trained in Freedom from Smoking
- Not sure but always happy to help!

Are there ways that you are already implementing Nutrition SHIP goals or are there ways your work aligns with the Nutrition SHIP goals? Please describe and include your organization.
(1/5)

- UKNEP(Nutrition Education Program) I work with SNAP Eligible, low income residents to provide lessons from how to stretch your budget to planning meals to increase fruits and vegetables. I also work with people in recovery. And IDD individuals
- KVH works to improve access to SNAP through improvements to the application and eligibility process and hope to be able to do the same for WIC when it is integrated into kynect. We've also been exploring opportunities to provide more nutrition supports to Medicaid members through new CMS initiatives.
- God's Pantry Food Bank administers 19 Healthcare Pantries across our 50 county

Are there ways that you are already implementing Nutrition SHIP goals or are there ways your work aligns with the Nutrition SHIP goals? Please describe and include your organization.

service area. We do this in partnership with hospitals and clinics.

- When I managed the clerical staff at LFCHD, we worked to have the right and responsibilities translated and now have a library of audio clips that we play for our participants.

This could be something we may be able to help with. I also think we could help align by helping increase knowledge of the fruits and vegetable vouchers.

- KFAN is finishing our roadmap and designing the distribution plan this fall. We hope to increase snap enrollment as an intro to food rx

(3/5)

even though it may not meet everyone's definition of a food as medicine program because we know that food equity contributes to health equity.

- On a local level, FRYSC coordinators assist families with food needs in a variety of ways. The FRYSC AmeriCorps program also addresses food insecurities in local communities.
- As part of my outreach with UKs

Human Development Institute I am working to support Special Olympics Kentucky athletes and families to participate in SNAP-Ed programming. I have represented KY at a national level for Special Olympics with the conversations around including people with disabilities in SNAP programs and services.

- We are doing Diabetes Dollars, commodity boxes, blessing

Are there ways that you are already implementing Nutrition SHIP goals or are there ways your work aligns with the Nutrition SHIP goals? Please describe and include your organization.
(4/5)

- bags, monthly community feed, and Aetna veggio project
- Small Scale Farmers Program (Kentucky State University). I am the Beginner Beekeeper coordinator under this program (just started in February 2024) but there are grants available (funded by the Kentucky Agriculture Development Board), but there could be some overlap.
- KHDSP is working with SPAN to collaborate with our CARE SMBP and CARE Collaborative programs.
- Being the KY WIC Farmers Market Nutrition Program coordinator, I am always looking to help better the families of Kentucky and to support local farmers. Thank you for all your work!
- KY Cancer Action Plan - many of our health system

Are there ways that you are already implementing Nutrition SHIP goals or are there ways your work aligns with the Nutrition SHIP goals? Please describe and include your organization.
(5/5)

0 1 8

- partners are interested in food insecurity and food as medicine
- Yes. DMS. MCOs are looking at food as medicine pilot
- Our work both at the community level and also policy work in Frankfort strongly align. Please keep me in the loop on developments and I'll plug in on the advocacy side wherever possible. American Heart Association.
- Promoting WIC Farmers Market vouchers
- We have a WIC infrastructure grant and are working to increase participation and retention.
- Yes! DCBS is working to align SNAP with SHIP goals!
- Yes allen county extension office

What strategies do you use to currently engage the Drug Use SHIP goals through your work?

006

- We talk often about how to reduce stigma for participants and how to build bipartisan political support for harm reduction.
- Refer patients to FindHelp
- Increase access to treatment for people with health disparities
- KEJC is using impact litigation to fight discrimination for people with SUD
- I do not use this at all in my work.
- Data collection and analyzation with the harm reduction team

What resources/collaborations would support alignment with Drug Use SHIP goals within your respective agency/organization?

005

- We provide MAT, case management, screening services and is supporting/monitoring the Medicaid Reentry waiver.
- I missed some of the goals due to technical issues, but pretty sure we'll be helping with many! - Mental Health America of Kentucky
- Coordinators do preventive work with students and families. - DFRYSC
- Local Lens podcast
- KVH chairs the Kentucky Healthy Reentry Coalition

What are you going to do tomorrow in your organization to start working on the State Health Improvement Plan (SHIP)?

(1/3)

026

- Headed to Breathitt County for a CHA forum - the presentation links health indicators to the SHIP priorities, so those in attendance are aware what's being addressed at the state level.
- Share this with my staff for input and Waze we can contribute and assist with improving the health of people who are blind or have low vision in Kentucky
- I would like to review the areas where FRYSC is mentioned specifically
 - named to make sure we are prepared to assist where needed.
- Talk with co workers and others .
Make information more accessible to all.
- Share all information with co-workers. Reach out to community partners
- Share the SHIP information! Think about the steps I need to do to get these goals off the ground.
- Encourage more coworkers to carry naloxone
- Talk with staff to see

(2/3)

0 2 6

- how we can move forward
- Determine areas me or my organization can be aligned in support of the SHIP
- Speak with leadership on new updates and see what better implementation we can add to our client care.
- Review with my team to see what we can implement
- Map our own family planning services to identify gaps in access to care.
- Start discussions with coworkers about what we want to focus on.
- Follow up on the state tobacco cessation data with Ellen
- Implement it into our grant writing! MHAKY
- Network at the State Fair and increase awareness of resources
- Continue work with the Harm Reduction team (collecting, and analyzing data to determine our LHDs needs regarding harm reduction)
- Schedule tobacco

What are you going to do tomorrow in your organization to start working on the State Health Improvement Plan (SHIP)?
